

Your Researcher Profile

Directions: Identify a university or research center you'd want to be affiliated with, and make up a title for an article you'd be interested in writing. Then, find a real journal that would publish that article. Use Google Scholar to look up the journal's h-index and Ulrich's to determine if it's open access. Make up a number for how many times you think the article would be cited!

Name: _____

Affiliation: _____

Your Top Cited Article

Title: _____

Journal: _____

H-index: _____ **Open Access?** Yes No
