

PROMPT Design Worksheet

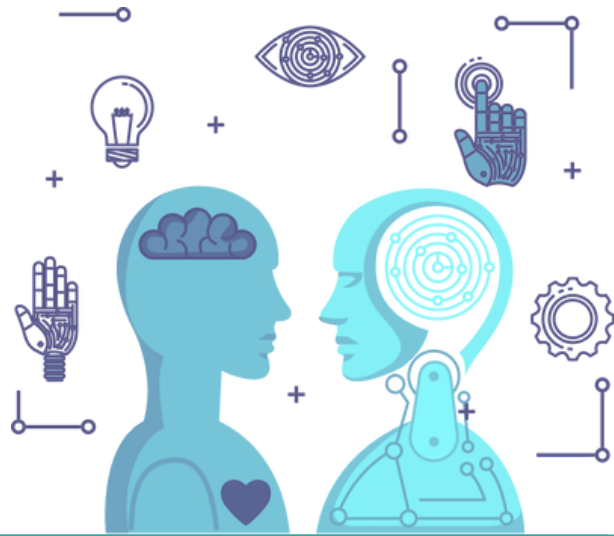

Use the PROMPT Design Framework to optimize output from generative AI platforms.

 P	Persona
 R	Requirements
 O	Organization
 M	Medium
 P	Purpose
 T	Tone

PROMPT Design Examples

Examples of how to use the PROMPT Design Framework to optimize output from generative AI platforms.

 P	Persona Assign a role . <i>"You are a [literary critic / compliance officer / patent attorney / etc.]"</i>
 R	Requirements Define the parameters for output. <i>Topical content to include / exclude, number of responses, word count / limit, reading level, standards compliance, etc.</i>
 O	Organization Describe the structure of output. <i>Alphabetical, chronological, table, bulleted or numbered list, step-by-step instructions, etc.</i>
 M	Medium Describe the format of output. <i>Prose, social media post, computer code, spreadsheet, website, slide deck, image, A/V, recipe, dialogue script, survey, interview, etc.</i>
 P	Purpose Identify the rhetorical purpose and intended audience . <i>Explain, summarize, pitch, entertain,.. College students, English language learners, investor, first date, etc.</i>
 T	Tone Specify the tone of output. <i>Academic, professional, snarky, funny, inspirational, sentimental, foreboding, etc.</i>
